

Data Sharing Opt-Out Form – see overleaf (please tick as relevant).

Common Health & Information Exchange (CHIE) – (Refused consent for upload to local shared electronic record - XaKRw)

*I do NOT wish to have a Hampshire Health Record (now called CHIE).

Summary care Record – (Express dissent for summary care record dataset upload – XaXj6)

*I do NOT wish to have a Summary care Record

What does it mean if I DO NOT have a Summary Care Record?

NHS healthcare staff caring for you may not be aware of your current medications, allergies you suffer from and any bad reactions to medicines you have had, in order to treat you safely in an emergency.

Your records will stay as they are now with information being shared by letter, email, fax or phone.

If you have any questions, or if you want to discuss your choices, please:

- phone the Summary Care Record Information Line on 0300 123 3020;

Care.data

*I do NOT want my personal confidential data to be released by my GP surgery for the care.data programme.

(Dissent from secondary use of general practitioner patient identifiable data - XaaVL)

*I do NOT want my personal confidential data from hospitals and other care providers to be released by the Health & Social Care Information Centre (HSCIC) for the care.data programme. (Dissent from disclosure of personal data by Health and Social Care Information Centre – XaZ89)

Other NHS Providers (such as District Nurses, over 75s nurses, podiatry, leg ulcer clinics, diabetes services etc)

*I do NOT wish for any part of my medical record to be shared with other services within the NHS

***I confirm that if I have not ticked a particular box then I am consenting to share data with other healthcare providers.**

Section A: it is important that you complete this section accurately and please use BLOCK CAPITALS

| | |
|-----------------------|---|
| Title | |
| Forename(s) | |
| Surname | |
| Address | |
| Mobile phone No. | *I do NOT Consent to receive text messages <input type="checkbox"/> |
| Email address: | *I do NOT Consent to receive emails <input type="checkbox"/> |
| Date of Birth | |
| NHS Number (if known) | |
| Patient's signature | |
| Date | |

If you are filling out this form on behalf of another person or child, their GP practice will check that you have the authority to do so. Please ensure you fill out their details in section A and your details in section B.

Section B:

| | |
|-------------------------|--|
| Your name | |
| Relationship to patient | |
| Your signature | |
| Date | |

Please hand this form into your GP practice (or if signing on behalf of someone else, their GP practice)

Data Sharing

Why is information collected about you, how may the information be used and who will be collecting it?

Care and Health Information Exchange (CHIE) is an electronic summary record for people living in Hampshire, Portsmouth and Southampton. GP Surgeries, hospitals, social care and community care teams collect information about you and store it electronically on separate computer systems. The CHIE stores summary information from these organisations in one place so that, with your consent, professionals can view it to deliver better care to you. This record contains more information than the SCR, but is only available to organisations in Hampshire. For more information visit www.hantshealthrecord.nhs.uk or phone 0300 123 1519

Summary Care Record (SCR) (in this area since Sept 2013) is a record that will contain important information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines that you have had. This does not include diagnosis or procedures. Giving healthcare staff anywhere in the country access to this information can prevent mistakes being made when caring for you in an emergency or when your GP practice is closed.

For more information visit <https://digital.nhs.uk/summary-care-records> or phone 0300 123 3020

Care.Data (started Spring 2014) is a modern information system that has been developed, which will make increased use of information from medical records with the intention of improving health services. Information such as your postcode and NHS number, but not your name, will be used.

Information will be held in a secure environment called the Health and Social Care Information Centre (HSCIC). The role of the HSCIC is to ensure that high quality data is used appropriately to improve patient care. The HSCIC has legal powers to collect and analyse data from all providers of NHS care. They are committed, and legally bound, to the very highest standards of privacy and confidentiality to ensure that your confidential information is protected at all times.

The information gathered by the programme can be used by NHS organisations to plan and design services better, using the best available evidence of which treatments and services have the greatest impact on improving patients' health. So ultimately, sharing your information will benefit YOU.

For more information visit www.england.nhs.uk/caredata or phone 0300 456 3531

Sharing with other NHS Providers (via our computer system known as TPP SystemOne)

Sometimes it will be necessary for us to refer you to other NHS providers who use the same clinical system as us (TPP SystemOne). It is of great benefit if that other provider can access basic information on your health to assist with the referral process (medications, summary of health problems, allergies) and in return we can see the outcome of this referral quicker. By consenting to share out they can see your data and by sharing in, we in return can see outcomes of your consultation/treatment with them.

You have a choice. Complete the reverse side of this form to express your preferences.

You have the right to prevent confidential information about you from being shared or used for any purpose other than providing your care, except in special circumstances.
